NELSON MANDELA
1st President of South Africa
Stafford Municipal School District

**Instructional Resources:**

**The Elementary Campuses**

In Prekindergarten through 6th grade, teachers use a variety of research-based instructional resources and strategies to support student learning. For instance, teachers utilize books from our robust guided reading library, facilitate hands-on investigations in math and science, and create classroom experiences to convey social studies concepts.

In addition, all students have access to both print and online textbooks. To access our online textbook platform, please visit: http://www.staffordmsd.org/cms/one.aspx?portalid=895956&pageid=1617198

Stafford also provides students with the following instructional resources that can be accessed outside of school:

*For login credentials, please contact your child’s teacher.

**The CLI collection** includes fun, easy activity ideas that families can do together to help support important school readiness skills for children ages 0-6.

https://cliengage.org/public/tools/materials/cac-family/

Educators, students, and parents can all extend learning beyond the traditional school day with Istation Home

https://www.istation.com/

Study Island provides proven academic support through practice, immediate feedback, and built-in remediation to improve students’ performance in core skill areas.

Library Media Services

The community library is open Mon., Tues., Thurs., until 6:30PM and Wed., until 7:30PM

Twenty four new digital resources for students, staff, and the community to access thousands of up-to-date, curated, and curriculum-relevant articles, images, videos, audio clips, primary sources, maps, research tools, and more.

Makerspace learning environments where maker stations and activities are integrated with classroom curriculum to enhance learning opportunities. Collaborating with teachers to help guide which activities are offered and how they can be structured to compliment educational goals.

Collaboration with teachers to help students improve research skills. Tech savviness by itself does not guarantee having the essential skills to perform high-quality research skills. The librarian teaches the fundamentals of database searching to prepare them for college and beyond.

Instructional Technology

Stafford offers a variety of online resources that students can access from home through our website. Our online textbooks include titles from every subject area including:

- English Language Arts
- Math
- Science
- Social Studies
- Foreign Language
- CTE

Every student in Stafford from the 2nd to the 12th grade has access to email, file storage, and common apps like Word and PowerPoint through Office 365! With Office 365 students can access their work anywhere, anytime, and on any device as long as an internet connection is present. That’s right—even at home!

Teachers can communicate with parents and students in a variety of ways:

- **Office 365** allows teachers to utilize apps such as Mail, Teams, and Class Notebook to communicate
- **Class Dojo** allows teachers to post important events taking place on campus and even message parents about student assignments and progress
- **Smsd Web 2.0** gives students and parents a way to find out what’s happening around the district, on individual campuses, and with individual teachers

Learning Management System Coming Soon!

Stafford will soon adopt a Learning Management System (LMS) where students can access course materials, complete assignments, take assessments, and communicate with the teacher and peers all in one place. More information soon to come!
